

CONSTRUCTION NOTICE

DECEMBER 2022

42 AVENUE SOUTHEAST – 936L and 937L Transmission Line Alteration

Project map:

(The work areas indicated below are approximate and not to scale)

Project details:

Reference: 21466201

Locations:

This work will take place near the south end of 13A Street SE and the west end of 42 Avenue SE.

Dates:

The majority of this work will occur over the following two weekends:

- December 9 to 11, 2022
- December 16 to 18, 2022

*Minor preparation work may be required outside of the above timelines.

Work times:

Weekdays and weekends,
7 a.m. – 5 p.m.

What's happening?

ENMAX Power will be installing a new steel monopole in at the south end of 13A Street SE and west end of 42 Avenue SE. This alteration will increase the height of the double circuit transmission line (936 and 937L), allowing ENMAX Power to comply with clearance distance requirements between 936L and 937L and existing facilities in the area. Resolving these clearance violations will ensure the safe, reliable, and efficient operation of ENMAX Power's electrical system.

42 AVENUE SOUTHEAST – 936L and 937L Transmission Line Alteration

What to expect:

We make every effort to minimize the effect our work has on daily activities, and we follow all applicable standards and bylaws. Below are the things to be aware of related to this project.

During construction:

- ENMAX Power and contractor vehicles, cranes, bucket trucks, hydrovac, and associated utility equipment will be on-site.
- Construction barricades and/or safety fencing (if required).
- Noise and/or minor vibrations during construction.
- Use of rig mats to level the working area and to protect the ground.
- Security personnel will be on-site after working hours monitoring the work area.

Power outages:

- A power outage to the adjacent commercial properties is not required to facilitate this work.

Road closures, railway impacts, and access:

- **From December 9 – 12 and December 16 – 18, 2022: the CN railway track will be temporarily blocked adjacent to the work zone** (see map on reverse page – yellow zone). Please be aware of contractor and ENMAX Power vehicles/equipment in the area and follow on-site signage and direction.
- **Limited roadway access impacts** adjacent to the work area. Please follow on-site signage and direction.
- **Restricted pedestrian access** near the work area. Please follow on-site signage and direction.

After construction:

- Following the completion of this work on December 18, 2022, regular access will be restored, and all materials will be removed.
- Areas affected by the project will be repaired once work is complete (weather permitting and as required).

We're here to help.

If you have any questions about this project, please reach out to our Customer Relations Team:
